Svetlana Dascaluc

President's Message:

Dear Evening Garden Club Members,

All of the enthusiasm and excitement for our recent Plant Exchange leads me to conclude that we are embarking on a wonderful year!

Clearly one third of our membership was present at the Plant Exchange and it went off well thanks to all of your organization and effort. We had some beautiful plants and some generous contributions from you.

As I mentioned, these plant exchanges are part of our PROVENANCE as an organization. I can show you at least 3 plants that I can thank other members for which are now quite happy in my garden as a result of my membership in the organization. When I see these plants I think as much about the EGC member as I do about the plant.

Hopefully you can share these feelings as well.

As I mentioned, I am eager to hear what your needs are and what things you would enjoy as members. The survey is my first inkling into where we need to go.

Enjoy your long weekend and get charged up for a great year. As you visit and reconnect with friends, PLEASE RECRUIT them. We are especially interested in varying ages and varying activities. As soon as we can we will transition back to the church building where we can be present with each other and see, touch, taste, and feel the plants.

Thank you in advance for recruiting your friends for years of fun.

Most sincerely,

K J Lee

President

Evening Garden Club

PS: A substance has been developed and will soon be commercialized which can be sprayed on plant blossoms to protect them from frost in the spring. Will be letting you know more about that as I hear.
